The Easiest Way to Recycle is Coming to You!

“Single Sort Recycling” from Allied Waste Services!
Along with a 95 Gallon Cart for Trash

Q: What is Single Sort Recycling?

A: Single Sort recycling from Allied Waste allows you to throw all recyclable materials into one cart- no sorting or separating of the materials is needed, we'll do it for you! We'll provide you with a specially–designed recycling cart that you can place all recyclables into. The cart has wheels so it's easy to roll down the driveway and has a special green lid that sets it apart from other containers.

Q: Why should the city want to switch to Single Sort Recycling?

A: Single Sort recycling is the easiest and most convenient way for citizens to recycle. No sorting is needed, and we'll provide a wheeled, easy-to-move, nice looking cart with an attached lid.

Q: When will the new Single Sort Recycling program start?

A: The new Single Sort recycling carts and the new trash cart will be delivered to your home.

We will empty your new recycling cart at your curb EVERY OTHER WEEK from that point on (we'll provide you with a calendar when we deliver the new carts). Please have your trash and recycling cart to the curb by 6:00 am on your service day.

Q: What should I do with the current recycling bins that I have?

A: Residents are required to use the new Single Sort Recycling Cart for recycling service. Therefore, please reuse the small bins as you wish (they make great storage containers).

Q: What size is the new Single Sort Recycling cart?

A: The new middle-sized recycling cart has 65 gallons of capacity. It stands 39” tall, is 25” wide, and is 27” deep. The “footprint” of the cart is similar to your current recycling bin, so it should fit in the same area you currently use.

You will receive more information attached to the cart when it is delivered. Please watch for this important information.

For more information please call our Customer Service Group at (563) 556-5393.
