

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
Monitoring Requirements Not Met for Dickeyville Waterworks

PWSID: 12200947 – DNR Violations: 48398793 MC-Grant County

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. Between 06/01/2015 – 06/30/2015 and 08/01/2015 – 08/31/2015., we did not monitor for **fluoride contaminants, and therefore cannot be sure of the quality of your drinking water during that time.**

There are no special precautions you need to take at this time. However, it is important to remember that the quality of your drinking water was not known at that time.

The cause of the missed monitoring was an oversight.

Better training is being done to prevent oversight.

The problem has been resolved and we are confident that the water quality was not compromised at any time.

If you have questions regarding the safety of our drinking water, please contact:
